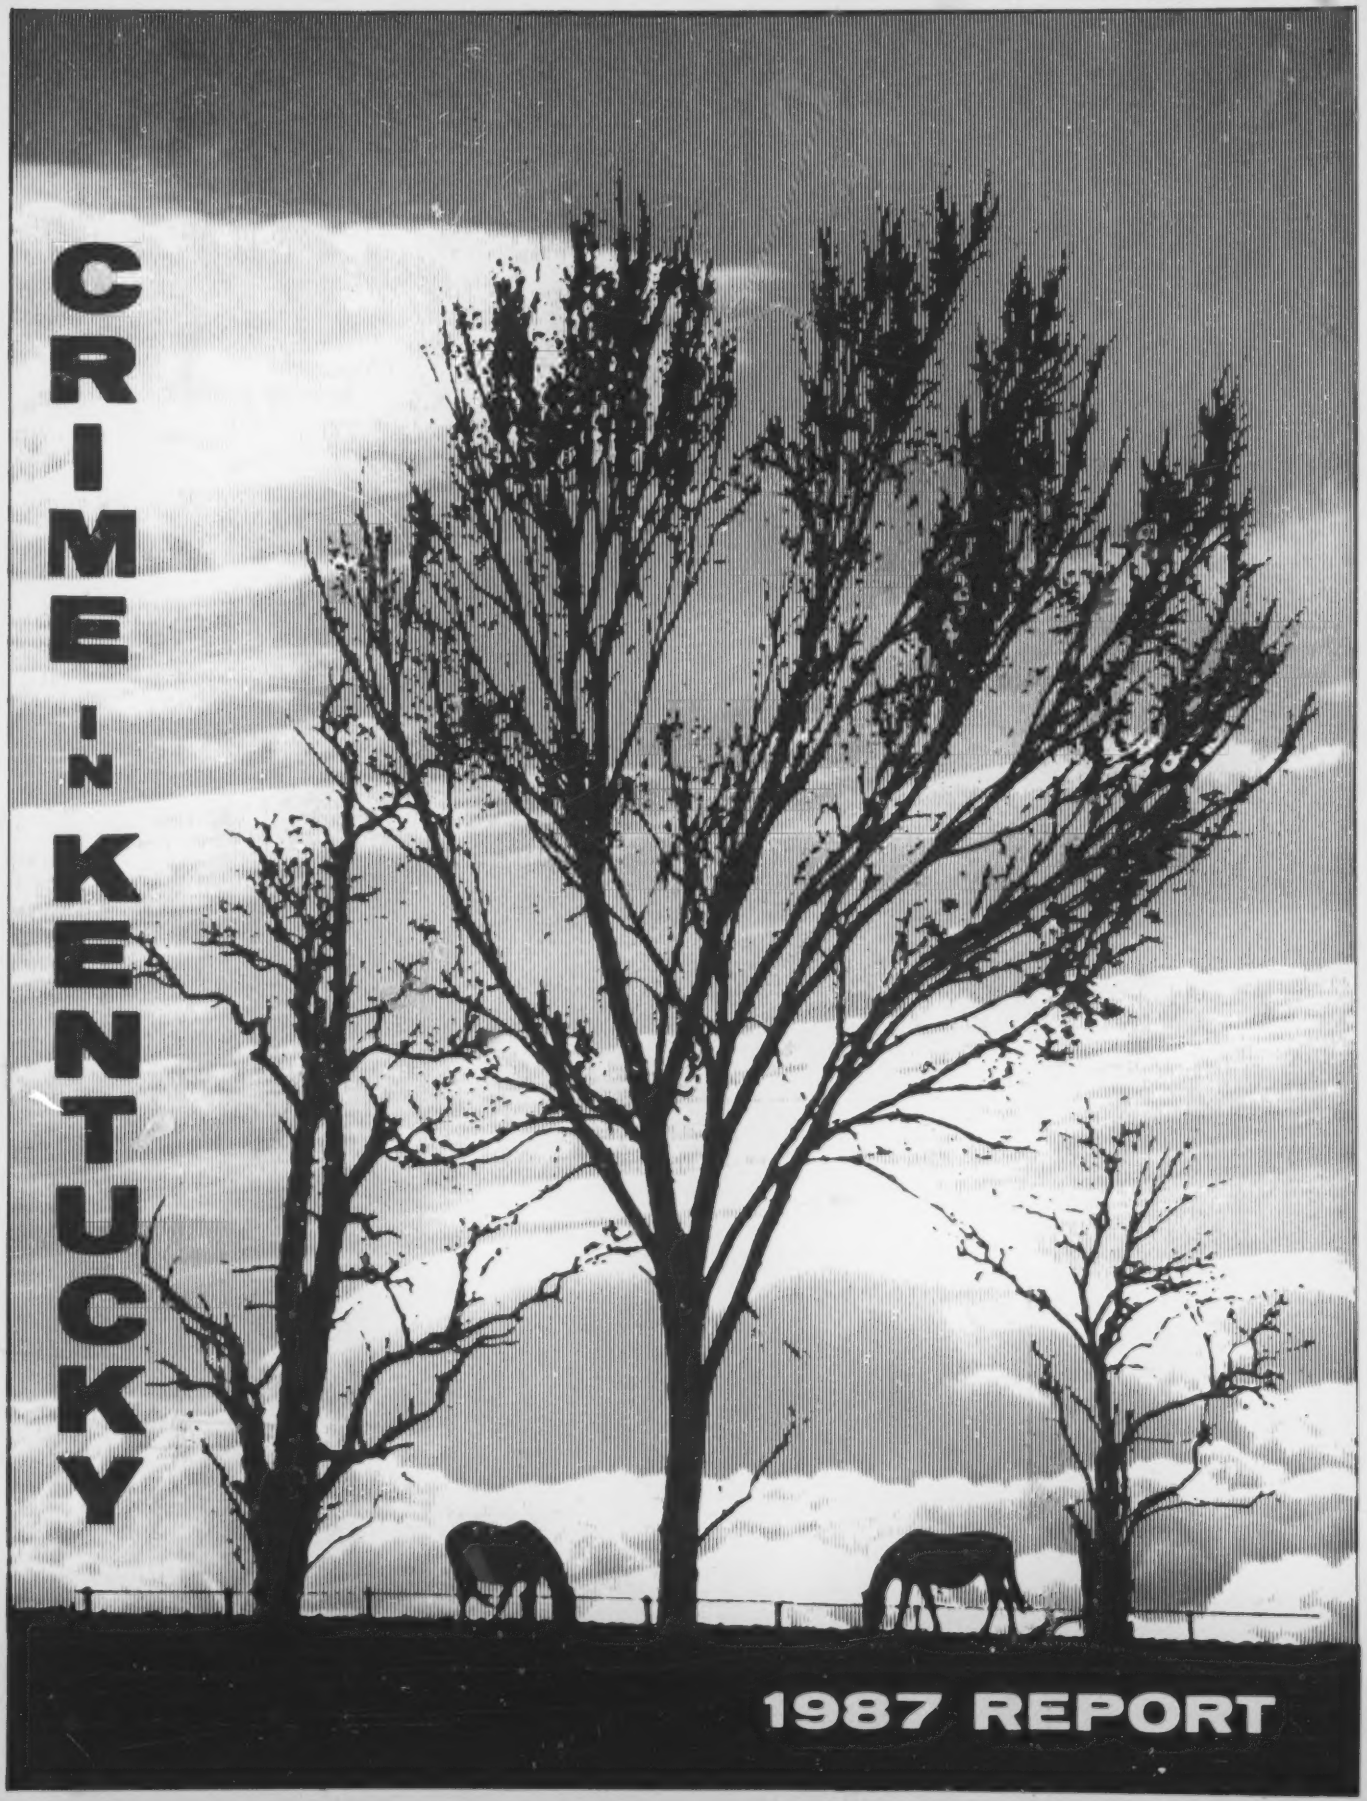
S3150-1-UA



GOVERNOR WALLACE G. WILKINSON
CAPITOL
FRANKFORT, KENTUCKY 40601

My Fellow Kentuckians:

This "Crime in Kentucky" report offers a statewide overview of serious crime in the Commonwealth during 1987. The information contained in this annual report awakens us all to the harsh reality of crime and the urgent necessity to develop effective strategies against crime.

The capture and analysis of offense and arrest data is the key starting point in devising measures that will effectively reduce the impact of crime. Without statistically sound and accurate information, any assessment of crime becomes, at best, "guesswork." With the issuance of this report on crime in our Commonwealth, I am pleased to report to you that Kentucky is on the threshold of implementing a more comprehensive analysis of both offense and arrest information. The tools for a better and more complete assessment of crime have recently been placed in motion.

With incident based reporting and the computerization of agencies, I feel confident that Kentucky is gaining a competitive edge against the criminal elements in our state. In fact, with these enhancements in place, Kentucky is fast becoming one of the national leaders in developing the capabilities necessary to implement workable strategies against crime.

Crime has a devastating effect on the quality of life in the Commonwealth. The economic impact of crime can be counterproductive to other efforts we are making to improve our economy. For this reason, I commend our law enforcement, corrections and court personnel for their efforts on behalf of the thousands of victims of crime.

I urge all citizens of the Commonwealth to join with our dedicated state and local criminal justice officials in a united front against crime.

Sincerely,

Wallace G. Wilkinson
Governor

WALLACE G. WILKINSON
GOVERNOR

W. MICHAEL TROOP
ACTING COMMISSIONER

The Honorable Wallace G. Wilkinson
Governor of Kentucky
The Capitol
Frankfort, Kentucky 40601

Dear Governor Wilkinson:

Pursuant to Chapter 17 of the Kentucky Revised Statutes, I am pleased to submit this 18th annual *"Crime in Kentucky"* report.

I would like to acknowledge the cooperation and contributions of all law enforcement agencies without whose compliance these statistics could not have been compiled. Under provisions enacted by the Kentucky General Assembly during the 1986 session, agencies were asked to comply with adjustments in offense and citation reports as well as the changeover from a mere summary report of crime information to that of a true "incident based" reporting system.

With state furnished computer equipment and software to fifty (50) agencies and limited funding provided to the existing computerized agencies, local law enforcement agencies were asked to begin a more extensive collection of information concerning each reported crime and each criminal arrested.

The result of this new automated system will benefit the Commonwealth for years to come.

I want to pledge the continued support of the Kentucky State Police in carrying out our responsibility in improving crime reporting and analysis in Kentucky.

Respectfully submitted,

W. Michael Troop
Secretary, Justice Cabinet
Acting Commissioner
Kentucky State Police

DEDICATION

This 1987 Crime in Kentucky Report
is fittingly dedicated to

Robert C. Banker

WHO PAID THE SUPREME SACRIFICE OF HIS LIFE
ON BEHALF OF THE CITIZENS OF THE COMMONWEALTH.

Mr. Robert C. Banker began his career with the Department of Fish & Wildlife Resources on April 1, 1982, as a Fisheries Technician with the Division of Fisheries. Mr. Banker transferred to the Division of Law Enforcement in December of 1985, as a State Conservation Officer assigned to Christian County.

On March 19, 1987, Officer Banker was on routine patrol checking fishing license at Lacy Lake, located in northeast Christian County. According to witnesses, Officer Banker issued a citation to a male subject for fishing without a license. After the citation was issued, Officer Banker turned and walked away. At this point, the subject shouted loudly to Officer Banker and as Officer Banker turned in response to the shouting, the subject using a .22 caliber rifle fired several shots, three of which struck Officer Banker in the chest resulting in his death.

Officer Banker was survived by his wife, Pamela Sue Banker; one daughter, Melissa Ruth Banker; and one son, Robert Edward Banker.

KENTUCKY'S CRIME REPORTING SYSTEM

WHAT IS THE KENTUCKY CRIME REPORTING SYSTEM?

Kentucky's Crime Reporting System collects, compiles, classifies, analyzes, and reports statewide and local area offense and arrest data. Chapter 17 of the Kentucky Revised Statutes, as amended in 1976, requires that all law enforcement agencies file crime reports and vests the authority and responsibility for maintaining the system with the Commissioner of the Kentucky State Police.

WHY IS THE CRIME REPORTING SYSTEM IMPORTANT?

Accurate and timely crime data are vitally important tools for law enforcement planning, operations, and management. The Governor and other public officials entrusted with responsibility for the safety and well-being of citizens as well as the overall quality of life in the Commonwealth need such information, as do citizens who are the potential victims of crime; researchers engaged in the study of crime and its effects are also entitled to an accurate assessment of crime.

In order to maintain uniformity of data nationwide, standardized definitions of offenses reported through the crime reporting system have been adopted in accord with national guidelines and state directives derived from House Bill 774 enacted by the Kentucky General Assembly in 1986.

WHAT ARE THE IMPORTANT CHANGES IN KENTUCKY'S REPORTING SYSTEM?

As of July 1, 1987, Kentucky changed from a "summary" based to an "incident" based reporting system. In place of monthly summary UCR reports, each agency was required to submit information regarding each felony and serious misdemeanor within ten (10) days. The result of this change is a more accurate and detailed database from which a more comprehensive analysis of crime and arrest statistics can be made.

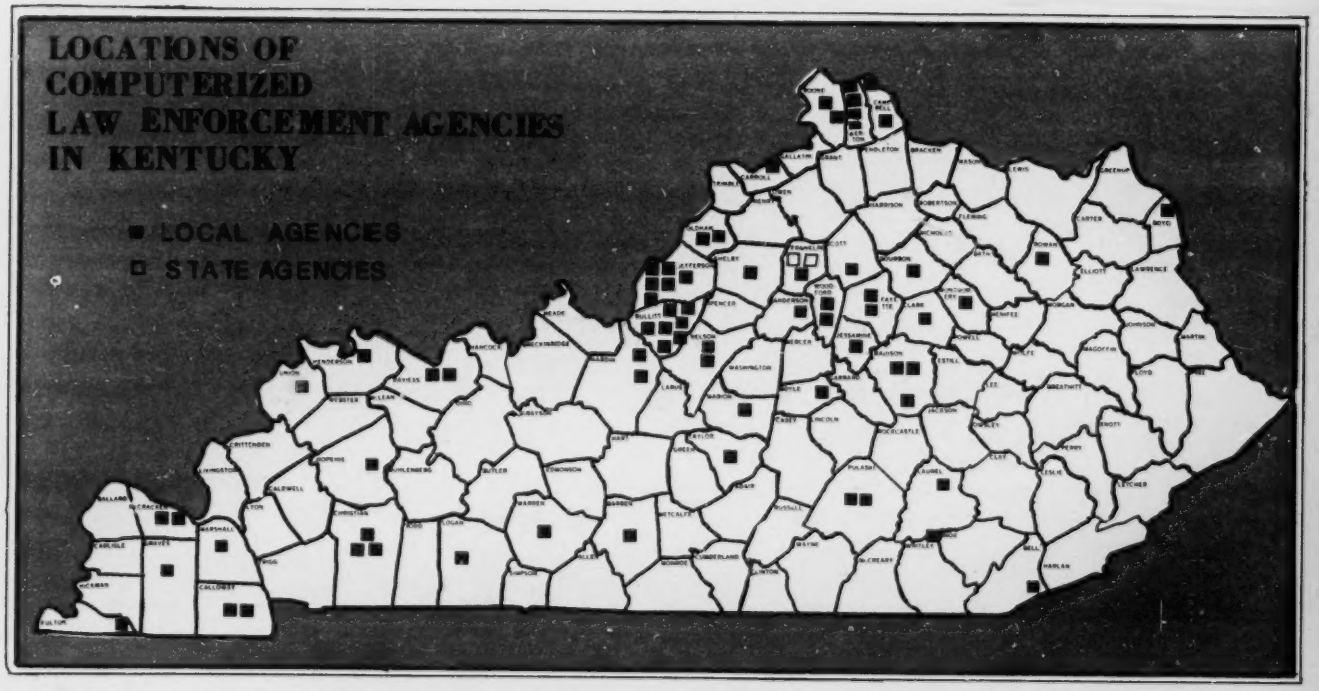
This incident based reporting system became fully automated during 1987, replacing the antiquated manual method of tabulating monthly UCR reports at the local level. Existing computers were utilized in those larger agencies with automated systems in place. Necessary software conversions were provided in order to make these existing systems compatible with the new centralized system. Agencies without previous computer capability were furnished new hardware and software, bringing the total number of agencies with computer capability to seventy-two. The more than two hundred police and sheriff's departments without computers forward Uniform Offense Reports on each incident to the State Police Records Section for entry into the centralized database.

Arrest information is derived from Kentucky's Uniform Citation, which are also entered into the centralized database. In order to capture disposition data, all citations flow through the respective courts, as required by House Bill 774.

Because the aforementioned modifications of the offense reporting system took place during the second half of 1987, offense statistics contained in this 1987 annual report have been derived from both summary and incident based reports. As of 1988, when a full year's data will have been entered exclusively through the incident based reporting system, the statistical enhancements envisioned will be manifest.

It is important to recognize that these important changes in Kentucky's crime reporting system could not have been realized without the willing cooperation of the state, local, and criminal justice agencies involved in reporting crime and arrest information. A major adjustment on the part of all sworn police officers, police records clerks, courts personnel, detention and corrections staff, and many others, was necessary in order to put this new system into operation.

The locations of the seventy-two computerized agencies in Kentucky are depicted in the map below.



STATE OFFENSE DATA

122,718 PART I Crimes were reported by law enforcement agencies in Kentucky during 1987, an increase of 7% (8,154 offenses).

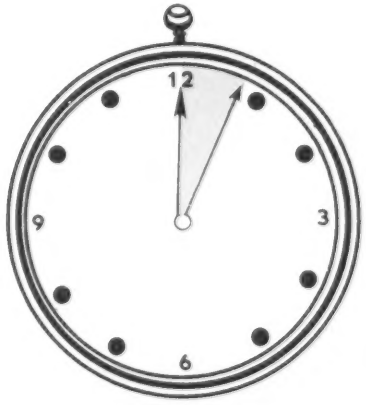
The most significant increases were in Robbery (+ 11%) and Larceny (+ 10%).

Murder rose +7%; Burglary increased +4%; Rape increased +2%; Aggravated Assaults and Auto Thefts showed only + 1% increases.

It should be noted that these overall statistics reflect only offenses reported to or known by the police.

Part I Crimes	Offenses Reported		Percent	Percent Distribution (1987)
Classification	Comparison		Change	
	1987	1986	1987/1986	
MURDER	270	253	+7	0.2
RAPE	872	853	+2	0.7
ROBBERY	3,413	3,063	+11	2.8
AGGRAVATED ASSAULT	8,315	8,221	+1	6.8
BURGLARY	31,716	30,554	+4	25.8
LARCENY THEFT	70,873	64,467	+10	57.8
AUTO THEFT	7,259	7,154	+1	5.9
TOTAL	122,718	114,565	+7	

Kentucky's overall crime rate for 1987 was 3293.7. The violent crime rate was 345.5; the property crime rate was 2948.3. NOTE: the crime rate, or "crime index" used nationally is derived from the following formula: population (3,725,833) divided by 100,000 = X: number of offenses divided by X = Crime Rate. Kentucky's population used to calculate the 1987 Crime Rate is based on figures tabulated by the Kentucky Cabinet for Human Resources, Department of Health.



A SERIOUS CRIME OCCURS IN KENTUCKY every 4 MINUTES

CRIME TRENDS: Annual fluctuations in the number of reported crimes can be attributed to a variety of factors other than real changes in actual crime. Such factors notwithstanding, the right-hand chart illustrates "patterns" of reported PART I Crimes between 1975 and 1987. The relationship between Property vs. Violent crimes is also depicted in the right-hand chart.

The lower left and right charts plot each Violent and Property offense, showing fluctuations between 1975 and 1987. Aggravated Assaults show consistent increases since 1978; Robbery has steadily increased since 1984. Rape and Murder show only slight increases in recent years. Larceny and Burglary depict upward trends since 1985, while Motor Vehicle Theft shows only slight increases since 1984.

VIOLENT CRIME GRAND TOTAL	12,870

The chart above shows 1987 PART I offenses by type law enforcement jurisdiction. The right and left-hand charts show Violent and Property offenses reported within these same jurisdictions. Violent Crimes include Murder, Rape, Robbery, and Aggravated Assault. Property Crimes include Burglary, Larceny, and Motor Vehicle Theft.

PROPERTY CRIME CITIES - 10,000 +	73,715
PROPERTY CRIME COLLEGES & UNIV.	2,307
PROPERTY CRIME KSP & OA	33,826
PROPERTY CRIME GRAND TOTAL	109,848

The chart below shows 1987 PART I offenses for all city and county law enforcement jurisdictions serving populations of 10,000 or more.

Jurisdictions serving populations of 10,000 or more reported 67% of all PART I Crimes. These large jurisdictions reported 38% of all Murders, 54% of all Rapes, 85% of all Robberies, 57% of all Aggravated Assaults, 61% of all Burglaries, 70% of all Larcenies, and 61% of all Motor Vehicle Thefts.

Universities with campus security/police departments reported 2% of all PART I Crimes, mostly attributable to the number of Larcenies (3% of all Larcenies) reported by these agencies, which include: University of Kentucky, University of Louisville, Eastern Kentucky University, Western Kentucky University, Northern Kentucky University, Morehead and Murray universities.

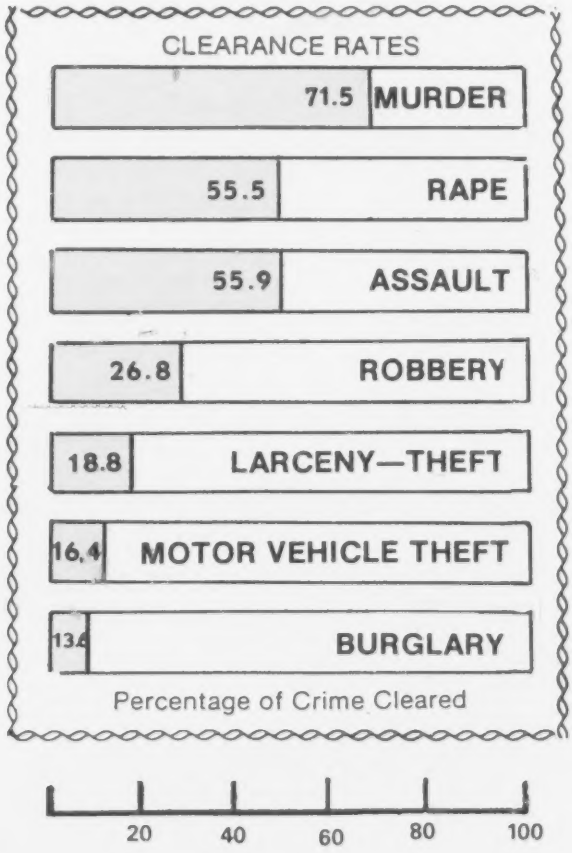
CLEARANCE RATES 1987

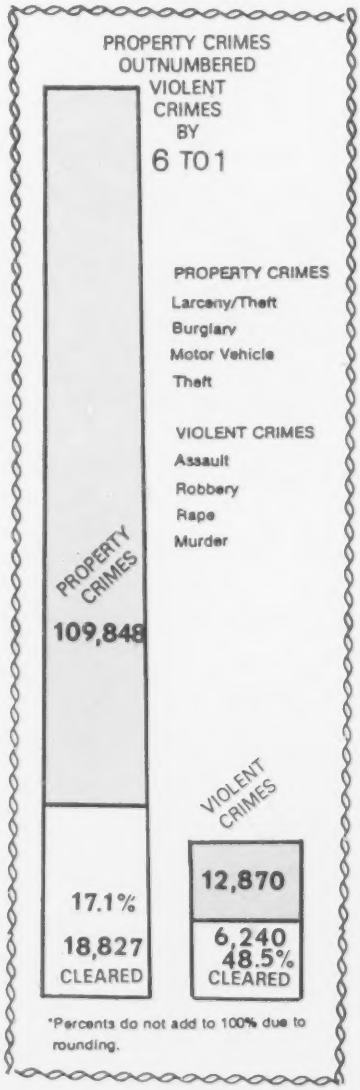
Clearance rates are depicted in the chart below 1987. Clearance rates are the percentage of cases cleared (through arrest or exceptional means) when compared with the total number of offenses reported to or known by the police. Clearance rates for 1987 were derived by applying a factor (% known clearances) to the total number of offense reported. As shown in the chart, clearance rates for property crimes are traditionally low. With the exception of robbery, clearance rates for violent crimes are high. High clearance rates for murder, rape, and assault are attributable to the fact that the perpetrator is known, recognizable, or in some way usually associated with the victim. Low clearance rates for robbery as well as property crimes can be attributed to the difficulty of the victim in identifying the perpetrator.

	MURDER	RAPE	ROBBERY	ASSAULT	BURGLARY	LARCENY	AUTO THEFT	TOTAL
1987	71.5	55.5	26.8	55.9	13.6	18.8	16.4	20.4

The right-hand chart depicts the relative clearance rates of property versus violent Part I Crimes. Property crimes, which outnumber Violent crimes by six to one, show a overall clearance rate of 17.1%. The overall clearance rate for Violent crimes is 48.5%.



The chart above depicts relative clearance rates for each of the seven Part I Crimes.



MURDER IN KENTUCKY 1987

DEFINITION

Murder is the unlawful killing of a human being with malice of aforethought. All homicides due to a fight, argument, quarrel, assault, or commission of another crime are included. Offense data for murder include only those offenses known to the police irrespective of arrest, arraignment, and conviction data. Traffic deaths due to negligence are not included under murder but are counted under manslaughter by negligence. Suicides, accidental deaths, and justifiable homicides are also excluded from the murder category.

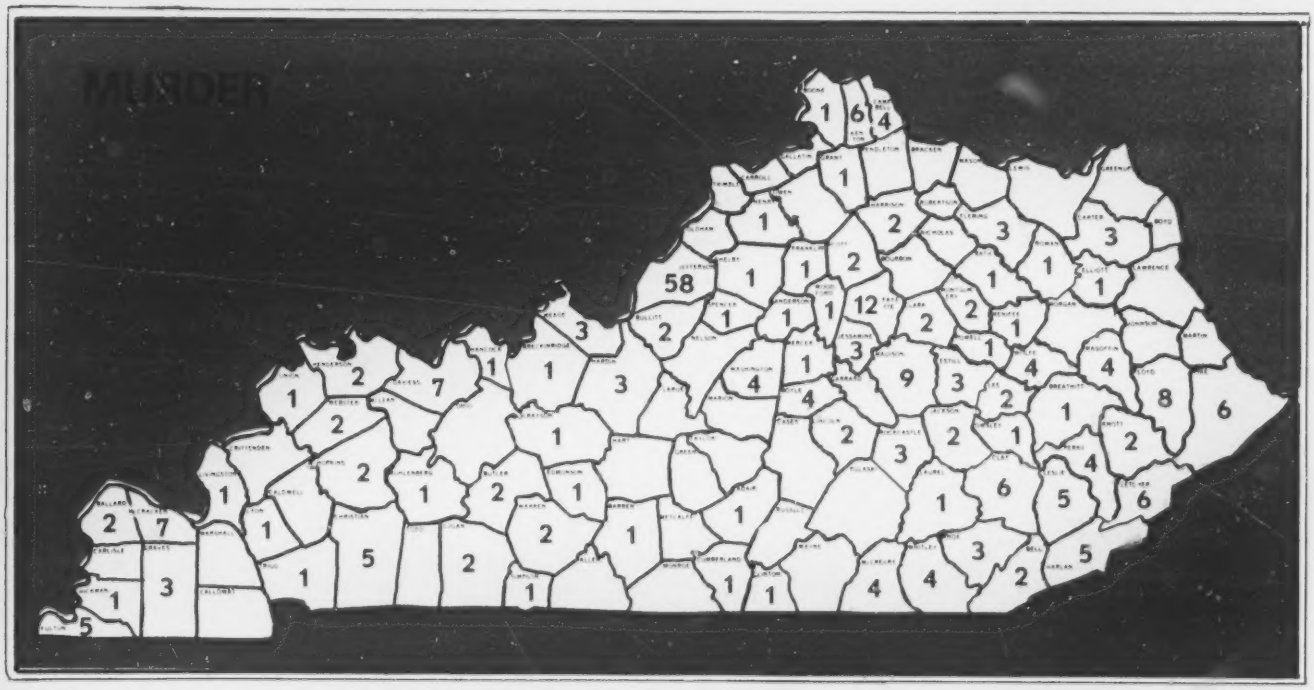
NUMBER REPORTED	CLEARANCES	RATE
270	193	71.5

Murder is the most serious of all PART I Crimes. Clearance rate for Murder is the highest of all Part I Crimes. Although some murders are difficult to solve, the intensity of police investigations together with solvability factors account for the high clearance rate for Murder.

As depicted in the map (below) the number of murders reported in Jefferson County far outnumbers those reported in other counties. 39 of Kentucky's one hundred twenty counties reported no murders during 1987.

NOTE: Statewide clearances and clearance rates were derived by applying a factor (percent of known cases cleared) to the total number of offenses reported statewide.

1 MURDER every 32 HOURS



MURDER WEAPONS AND CIRCUMSTANCES

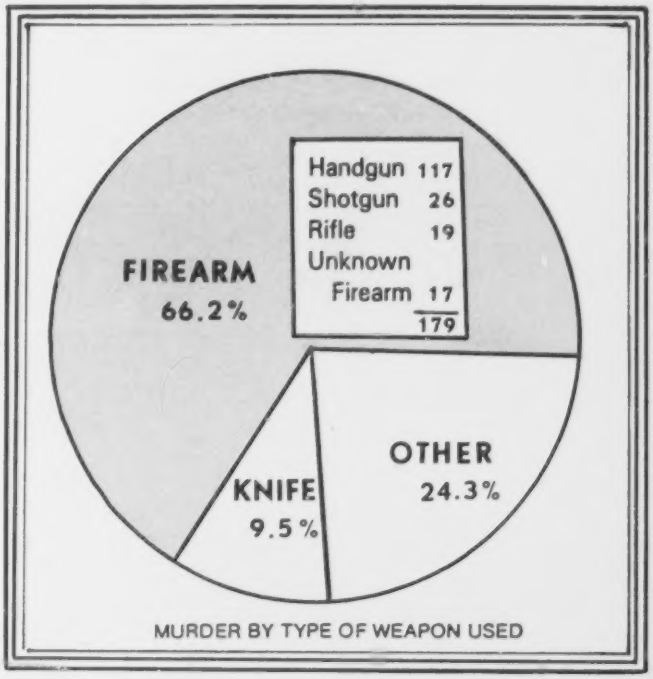
MURDER WEAPONS:

A firearm was used in 179 murders perpetrated during 1987. In 117 (64.8%) of those murders involving a firearm, a handgun was used.

A knife or other cutting instrument was used in 29 incidences.

Weapons other than firearms and knives used in 1987 Murders included blunt objects, asphixiation with carbon monoxide, drug overdose, and explosives.

The right-hand chart shows the types of weapons used for 262 of the 270 murders reported during 1987. Information was not provided for eight incidences. Percentages are based on incidences where the weapon information was available.



MURDER BY TYPE OF WEAPON USED

MURDER CIRCUMSTANCES:

The right-hand chart depicts the circumstances involved in the 270 murders reported during 1987.

118 circumstances involved arguments and 24 involved lovers' quarrels, representing 53% of all reported murders.

53 incidences of murder were perpetrated in conjunction with another felony such as robbery, rape, or other serious crimes.

MURDER CIRCUMSTANCES	TOTAL
ARGUMENT	118

CIRCUMSTANCES UNKNOWN	58
TOTAL	270

MURDER VICTIMS BY AGE, SEX, AND RACE

MURDER VICTIMS

The age, sex, and race of 258 of Kentucky's 270 murder victims during 1987 are shown in the right-hand chart. Information was not available for twelve victims. Percentages are based on known victims only.

As depicted below, 78.3% of the victims for which information was available were males and 21.7% were females.

81.4% of the victims were white and 18.6% were black.

71.7% of the victims were males between the ages of 20 and 49. 67.9% of the female victims were in this same age group.

The 20-49 age group also accounted for 77.1% of the white victims and 77.0% of the black victims.

AGE	SEX		RACE	
	Male	Female	White	Black
Under 1	1		1	
1-4	4	3	7

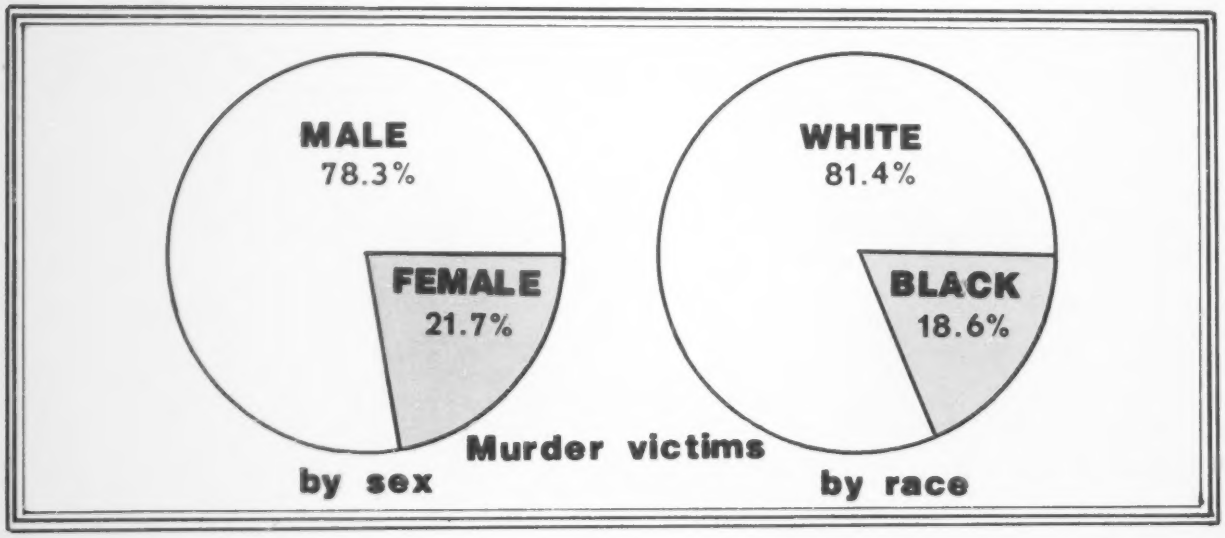
Percent	78.3	21.7	81.4	18.6



RAPE IN KENTUCKY — 1987

DEFINITION

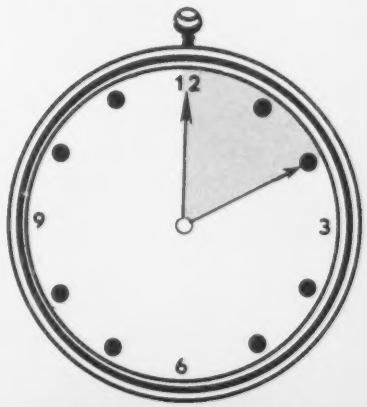
Rape is defined as the carnal knowledge of a person forcibly and against the person's will. Only "forcible" rapes are included, together with assaults for the purpose of rape and attempted forcible rapes. Excluded are statutory rapes (rape of a female victim who is "under age" when no force is used), carnal abuse, and other sex offenses.

NUMBER REPORTED	CLEARANCES	RATE
872	484	55.5

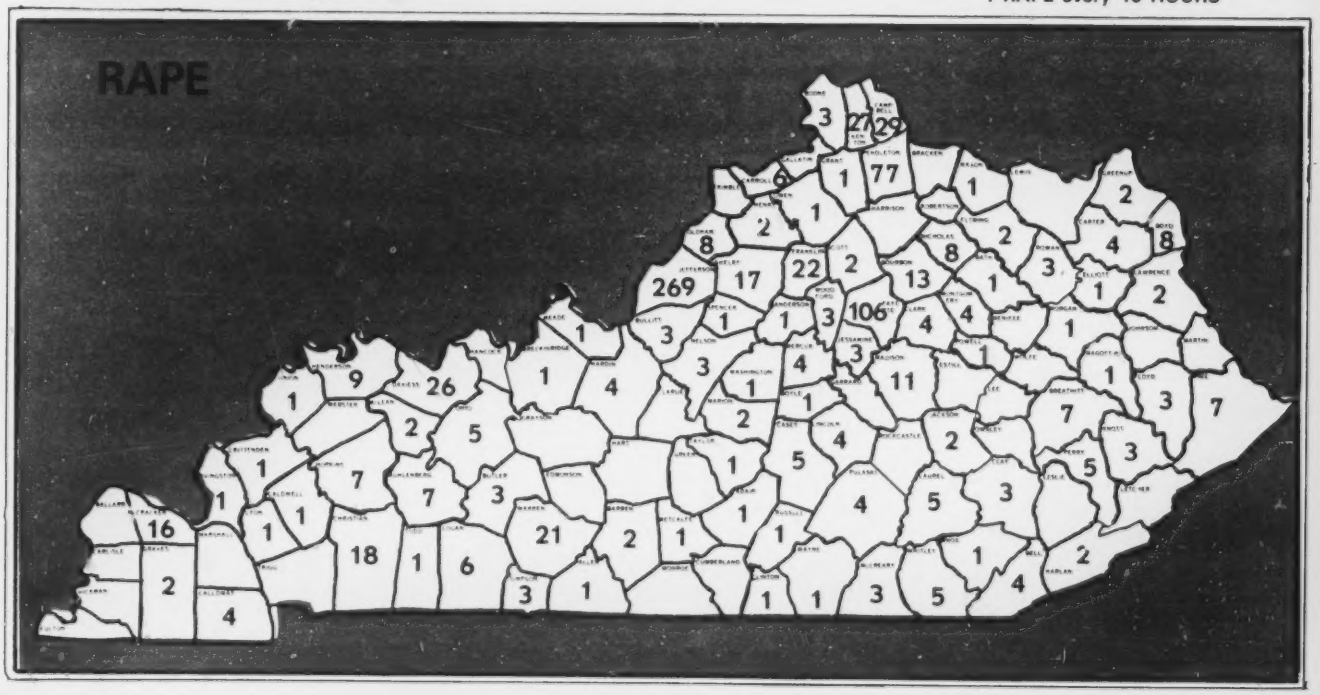
872 Rapes were reported to the police during 1987. The Clearance Rate is high when compared with property and other offenses. One explanation for the many rapes cleared is the fact that the victim and the offender are frequently acquaintances or even related.

31% of the reported Rapes occurred in Jefferson County and 12% in Fayette County, the state's largest metropolitan areas. Twenty-five of Kentucky's counties reported no Rapes during the year.

NOTE: Statewide clearances and clearance rates were derived by applying a factor (percent of known cases cleared) to the total number of offenses reported statewide.



1 RAPE every 10 HOURS



ROBBERY IN KENTUCKY — 1987

DEFINITION

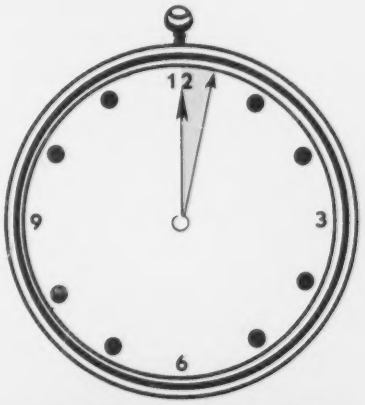
Robbery is the felonious and forcible taking of the property of another against his will by force or the threat of force or violence and/or by putting the victim in fear. All assaults and attempts to rob are included. Robberies are reported in two general categories: armed (any weapon or threatening object is used) and strong-arm (to include muggings and similar offenses where no weapon is used but strong-arm tactics are employed).

NUMBER REPORTED	CLEARANCES	RATE
3,413	915	26.8

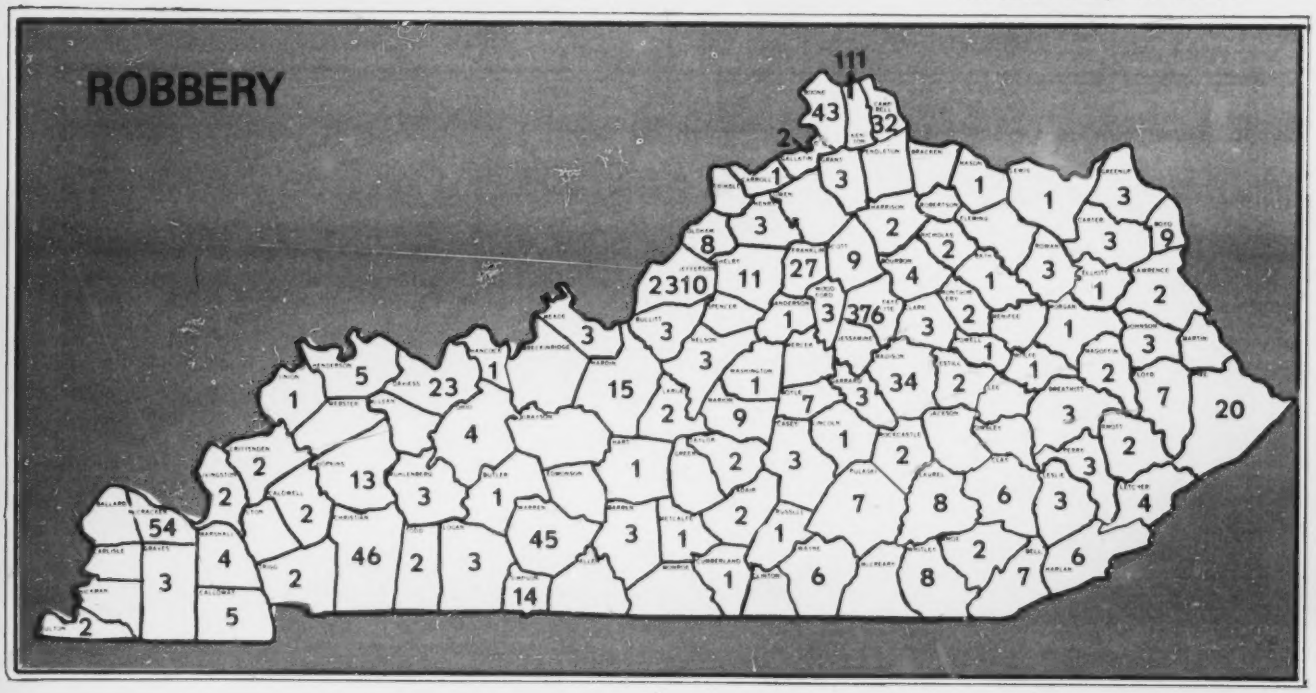
Robbery is considered to be a serious crime because the element of fear and personal confrontation with a weapon or strong-arm tactic is always present. The clearance rate for robbery is slightly higher than for other crimes motivated by the theft of property, but low by comparison with Murder, Assault, and Rape - in which the element of personal confrontation is also present. This is attributable to the fact that the perpetrator usually conceals his personal identity from the victim.

As depicted in the map below 68% of the Robberies were reported in Jefferson County, 11% in Fayette County, and 5% in the Northern Kentucky Counties of Boone, Campbell, and Kenton. No Robberies were reported in twenty-six counties.

NOTE: Statewide clearances and clearance rates were derived by applying a factor (percent of known cases cleared) to the total number of offenses reported statewide.



1 ROBBERY every 2.5 HOURS



ROBBERY — PLACE OF OCCURRENCE

Classification	Number of Offenses	Percent of Distribution	Total Value	Average Value
Highway	1,401	44	$ 1,687,475	$ 1,204
Commercial House	446	14	$ 474,203	$ 1,063
Gas-Service Station	200	6	$ 23,108	$ 116
Chain Store	330	10	$ 133,991	$ 406
Residence	308	10	$ 163,035	$ 529
Bank	65	2	$ 451,104	$ 6,940
Miscellaneous	431	14	$ 332,099	$ 771
TOTAL for Kentucky*	3,181	100	$ 3,265,015	$ 1,026

*Totals where classification was reported.

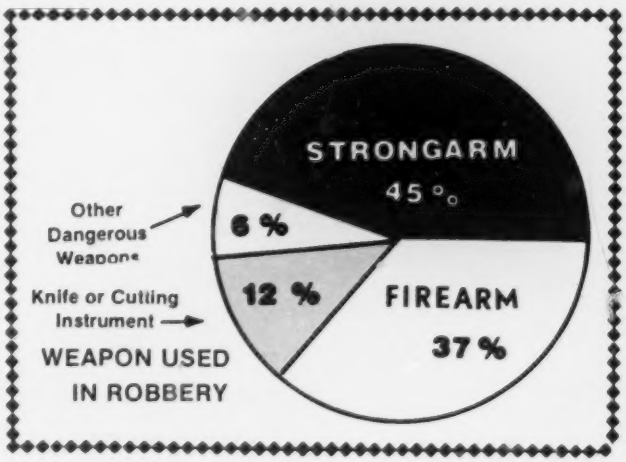
As shown in the above chart, most robberies (44%) during 1987 were reported to have occurred on a highway or street. This points to the fact that persons are most susceptible to being robbed while stopped or when walking on a roadway or street and calls for citizens to be extremely cautious when stopped for repairs or when walking along a seemingly deserted street.

Commercial house robberies account for 14% of the incidences reported during 1987. These locations would include hotels, motels, and other similar places of business.

Robberies of chain stores and residential robberies both accounted for 10% of the reported robberies. Banks, which account for only 2% of all robberies, shows the highest "average value" stolen, nearly $7,000 per incidence.

WEAPON USED IN ROBBERY

Based on a sample of 1,611 robberies, a firearm was used in 37% of the incidences. Strongarm tactics (hands, fist, feet) were used in 45% of the incidences. A knife or similar weapon was used in 12% of the cases. Other dangerous weapons such as clubs, sticks, etc. accounted for 6% of the incidences.



AGGRAVATED ASSAULT — 1987

DEFINITION

Assault in the unlawful attack by one person upon another for the purpose of inflicting severe or aggravated bodily injury. It is not necessary that injury results from an aggravated assault when a gun, knife, or other weapon is used which could, and probably would, result in serious personal injury. Therefore, all attempts to assault when serious injury would have been likely are included. Excluded from the Part I Crime of "aggravated assault" are all assaults which do not include the use of a dangerous weapon and in which there was no serious or aggravated injury. These "simple assaults" are counted as Part II Crimes.

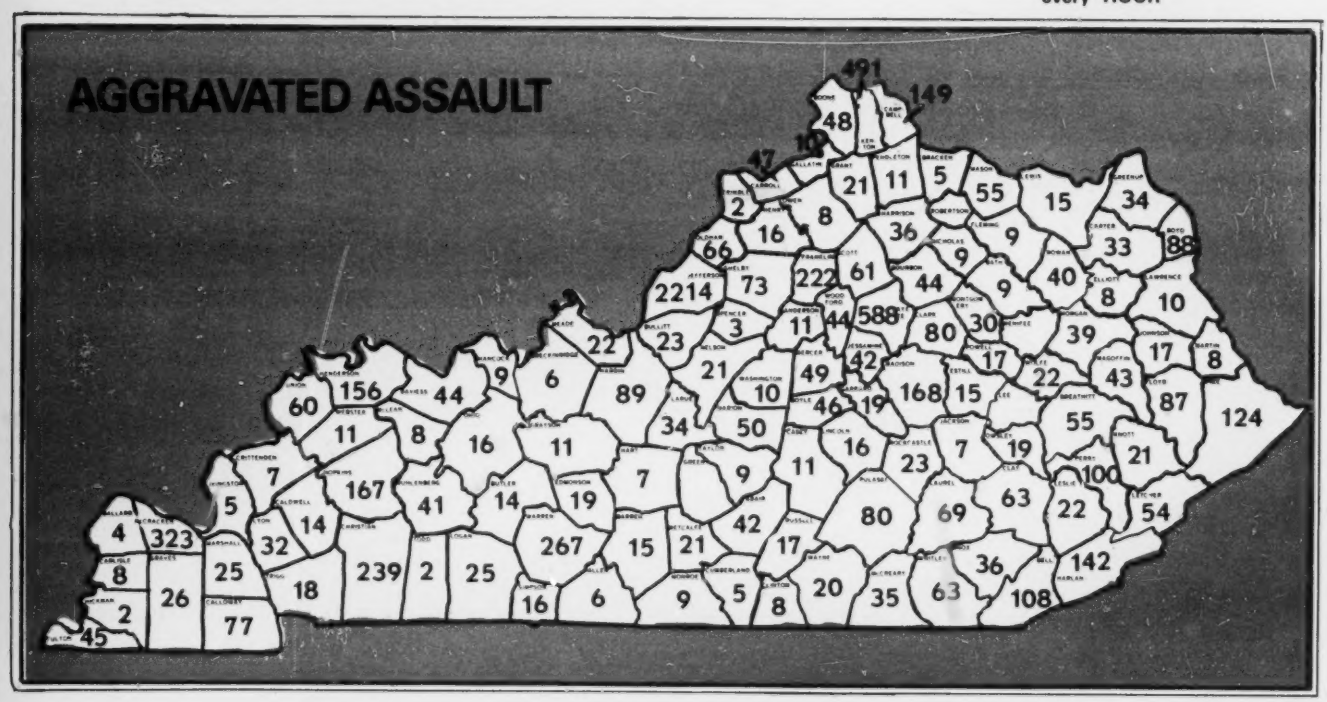
NUMBER REPORTED	CLEARANCES	RATE
8,315	4,648	55.9

Included in the 8,315 Aggravated Assaults reported during 1987 are those attacks resulting in serious or "aggravated" bodily injury as well as those in which a dangerous weapon was used but no serious injury resulted. Because the victim is frequently related to or an acquaintance of the perpetrator, the clearance rate for Aggravated Assault is high.

As shown in the map below, Aggravated Assaults were reported in all but two of Kentucky's counties (Green and Menifee), with Jefferson County reporting 27%, Fayette 7%, and the Northern Kentucky counties of Boone, Campbell and Kenton reporting 8% of the Aggravated Assaults.

NOTE: Statewide clearances and clearance rates were derived by applying a factor (percent of known cases cleared) to the total number of offenses reported statewide.

1 AGGRAVATED ASSAULT every HOUR



WEAPONS USED IN AGGRAVATED ASSAULT

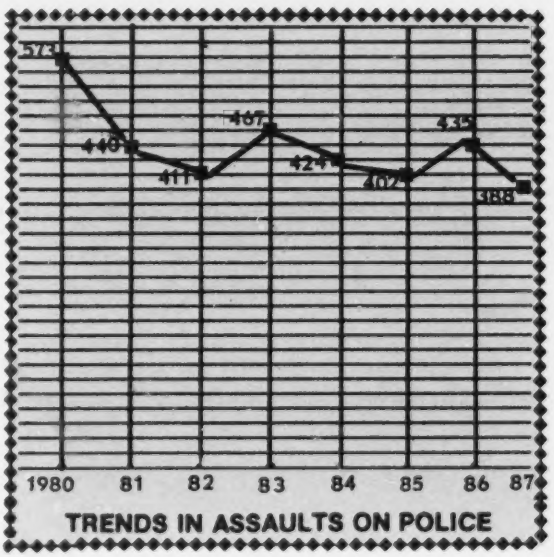
The category of Aggravated Assault includes the following offenses: assaults or attempts to kill or murder; poisoning; assault with a dangerous or deadly weapon; mayhem, maiming, assault with explosives; and all attempts to commit the foregoing offenses.

It should be noted that it is not necessary that injury result from an aggravated assault when a gun, knife, or other weapon is used which could and probably would result in serious personal injury if the crime were successfully completed.

Weapons used in Aggravated Assaults are derived from a sample of 3,340 cases, and, as shown in the right-hand chart, personal weapons (hands, fist, or feet) were used in 55% of the sample. The seriousness of the injury is the primary factor considered by the police in classifying an assault as "aggravated," in those instances where a personal weapon was used. 15% of the Aggravated Assaults involved the use of a firearm. A knife, or other cutting instrument also accounted for 15% of the sample; other dangerous weapons, such as clubs, bottles, or other blunt instruments were used in 15% of the sample cases investigated.

It should be noted that the 8,315 Aggravated Assaults reported during 1987 does not include "other," or "simple" assaults which include those assaults which do not involve the use of a dangerous weapon and/or from which no serious injury resulted.

388 Assaults on Police Officers were reported during 1987. Trends in assaults on police officers are shown in the right-hand chart.



BURGLARY IN KENTUCKY — 1987

DEFINITION

Burglary is the unlawful entry of a structure with the intent to steal or commit another felony, including entries where force of any kind is used to gain entrance, entries where no force was used (an unlocked door or by concealment), and attempts to enter forcibly (even though entry was not actually gained). Thefts from premises with "open access" are not included. These thefts would be counted as larcenies.

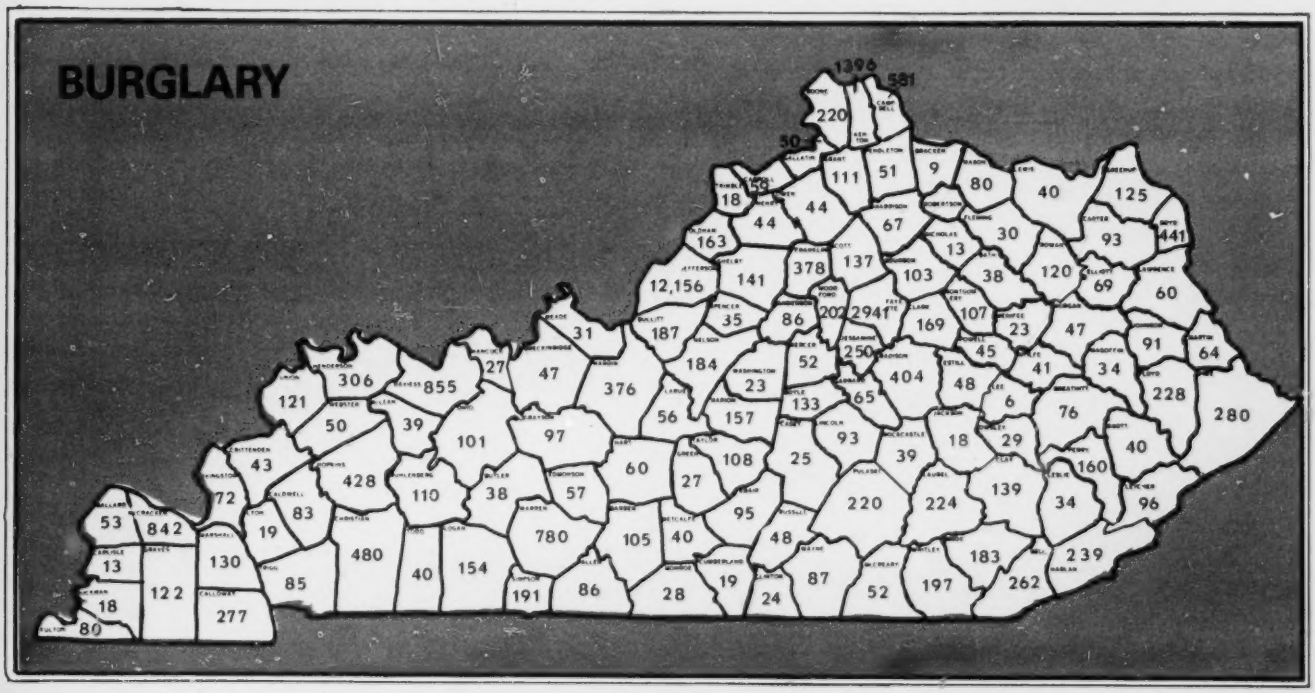
NUMBER REPORTED	CLEARANCES	RATE
31,716	4,313	13.6

31,716 Burglaries were reported during 1987. Included in the offense of Burglary are all unlawful entries into a home, business, or other structure whether the perpetrator entered by force, through an unlocked door, or concealment. Forced "attempts" are also included irrespective of whether entry was gained or not. Thefts from premises with open access (e.g. a store during business hours) are not included. Such thefts are counted as "Larceny-Thefts."

As shown in the map below, Burglary is a repeated occurrence in all of Kentucky counties, with Jefferson County reporting 38%, Fayette 9%, and the Northern Kentucky counties of Boone, Campbell, and Kenton reporting 7% of all Burglaries.

NOTE: Statewide clearances and clearance rates were derived by applying a factor (percent of known cases cleared) to the total number of offenses reported statewide.

1 BURGLARY every 17 MINUTES



THE COST OF BURGLARY IN KENTUCKY

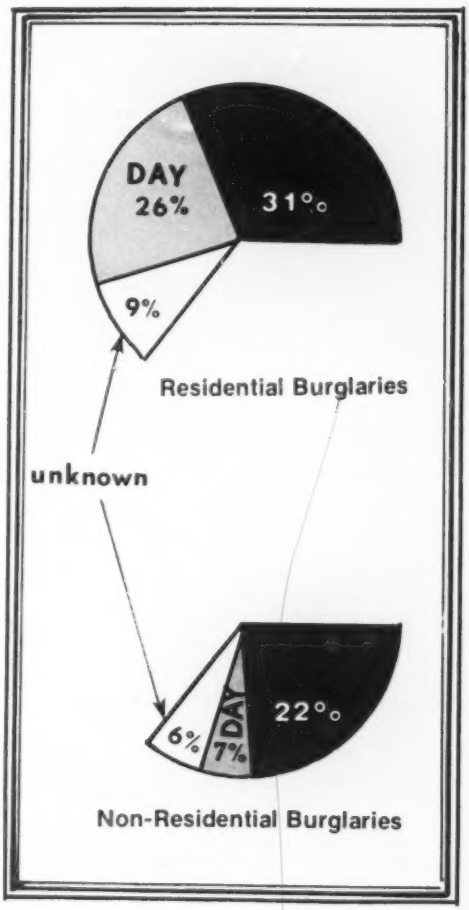
Classification	Number of Offenses	Percent of Distribution	Total Value	Average Value
Residential: Night	8,830	30.9	$ 6,466,249	$ 393
Day	7,306	25.6	$ 5,293,052	$ 724
Unknown	2,450	8.6	$ 7,442,256	$ 3,038
Sub-Total	**18,586**	**65.1**	**$ 19,201,557**	**$ 1,033**
Non-Residential: Night	6,298	22	$ 4,509,171	$ 716
Day	1,973	6.9	$ 1,326,573	$ 672
Unknown	1,730	6	$ 1,245,278	$ 720
Sub-Total	**10,001**	**34.9**	**$ 7,081,022**	**$ 708**
TOTAL FOR KENTUCKY	**28,587**	**100**	**$ 26,282,579**	**$ 919**

The number of burglaries classified by residential and non-residential burglaries, together with day vs. night occurrences, and the value of property losses reported, are shown in the above chart.

The reported value of all property stolen in 1987 burglaries exceeded $26 million, with an average loss per of $919 per incident. The average loss for residential burglaries was $1,033, while average losses for non-residential burglaries was $708.

As depicted in the right-hand chart, the majority of both residential and non-residential burglaries were reported to have occurred during the night (53%).

Burglary is a crime of "opportunity" and can be predicted to occur most frequently when the victim is not at home or when business premises are not occupied.



LARCENY IN KENTUCKY — 1987

DEFINITION

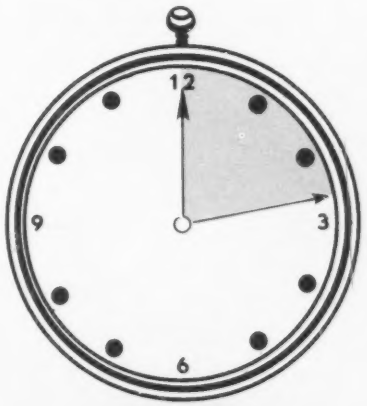
Larceny, or Larceny-Theft, is the unlawful taking of property or articles of value without the use of force, violence, or fraudulent conversion. Included are such offenses as pocket picking, purse snatching (where little or no force is used), shoplifting, thefts from autos, thefts of auto parts and accessories, bicycle thefts, and thefts from buildings when the perpetrator entered legitimately. The theft of automobiles, trucks, and other vehicles are classified separately. Con games, forgeries and bad checks, embezzlement, and obtaining money under false pretenses are not included under the category of larceny. All larcenies, irrespective of the value of property stolen, are included.

NUMBER REPORTED	CLEARANCES	RATE
70,873	13,324	18.8

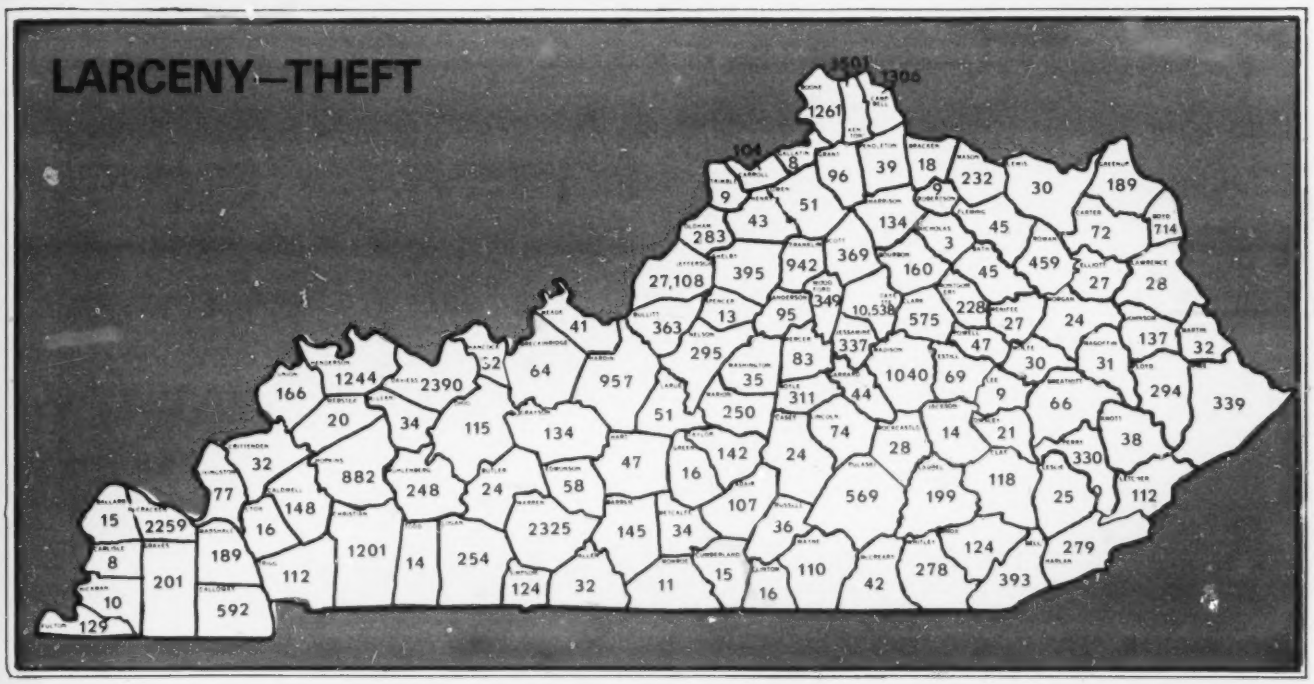
70,873 Larcenies were reported during 1987. Larceny is the most frequently occurring PART I Crime. Other than the stolen property itself, there are normally few clues on which to base an investigation. Consequently, the clearance rate for larceny is low.

All Kentucky counties reported substantial incidences of Larceny, with Jefferson County reporting 38%, Fayette County 15%, and Boone, Campbell, and Kenton counties in Northern Kentucky reporting 9% of all the incidences. McCracken, Daviess, Warren, Henderson, and Madison counties also reported high numbers of Larcenies.

NOTE: Statewide clearances and clearance rates were derived by applying a factor (percent of known cases cleared) to the total number of offenses reported statewide.



1 LARCENY every 8 MINUTES



THE COST OF LARCENY IN KENTUCKY

Classification	Number of Offenses	Percent of Distribution	Total Value	Average Value
Pocket-Picking	700	1	$ 169,188	$ 242
Purse Snatching	1,134	2	$ 136,622	$ 120
Shoplifting	9,027	14	$ 863,380	$ 96
From Autos	12,618	20	$ 4,720,369	$ 374
Auto Parts and Accessories	13,047	21	$ 3,229,596	$ 248
Bicycles	4,043	6	$ 974,755	$ 241
From Buildings	8,160	13	$ 4,199,728	$ 515
From Coin Operated Machines	683	1	$ 189,385	$ 277
Livestock	252	.4	$ 319,062	$ 1,266
Farm Equipment	285	.45	$ 583,095	$ 2,046
All Other	13,051	21	$ 7,656,304	$ 587
Total for Kentucky	**63,000**	**100 (Rounded)**	**$ 23,041,484**	**$ 366**

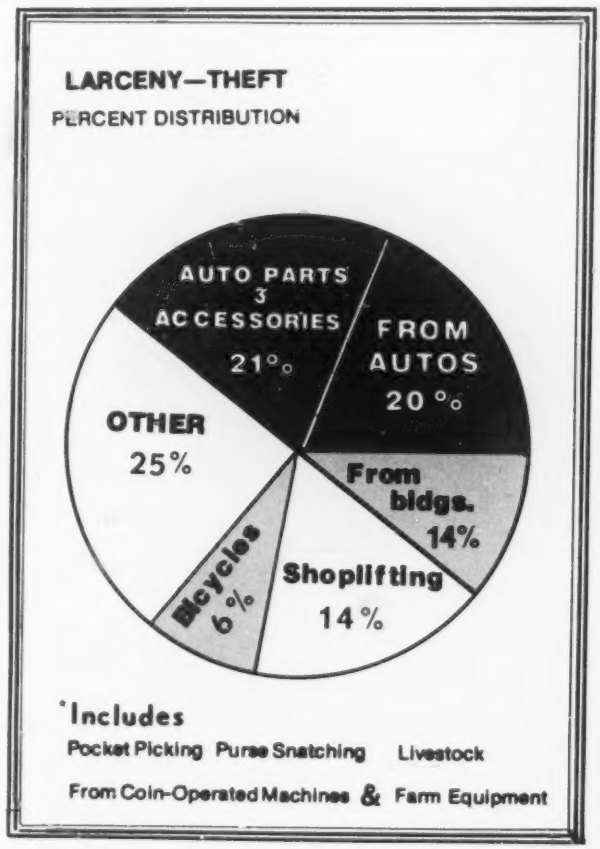
As seen in the above table, the total reported value of property stolen in larcenies reported during 1987 was $23,041,484. The type of larcenies reported in Kentucky can be seen by the number of offenses reported in each classification and the total value of property stolen.

The right-hand chart shows the percentage of occurrence for five major types of larceny.

41% of all larcenies reported in Kentucky during 1987 were related to theft of Auto Parts and Accessories; 21% were theft of personal effects from Autos. These two incidences account for $7,949,965 in losses.

Theft of items from buildings represents 13% of all reported larcenies and 18% of the value of property stolen. Shoplifting accounts for 14% of the incidences, but only 4% of the value of property stolen. This may be attributed to the fact that many businesses do not report shoplifting incidences to the police unless and until a perpetrator has been apprehended.

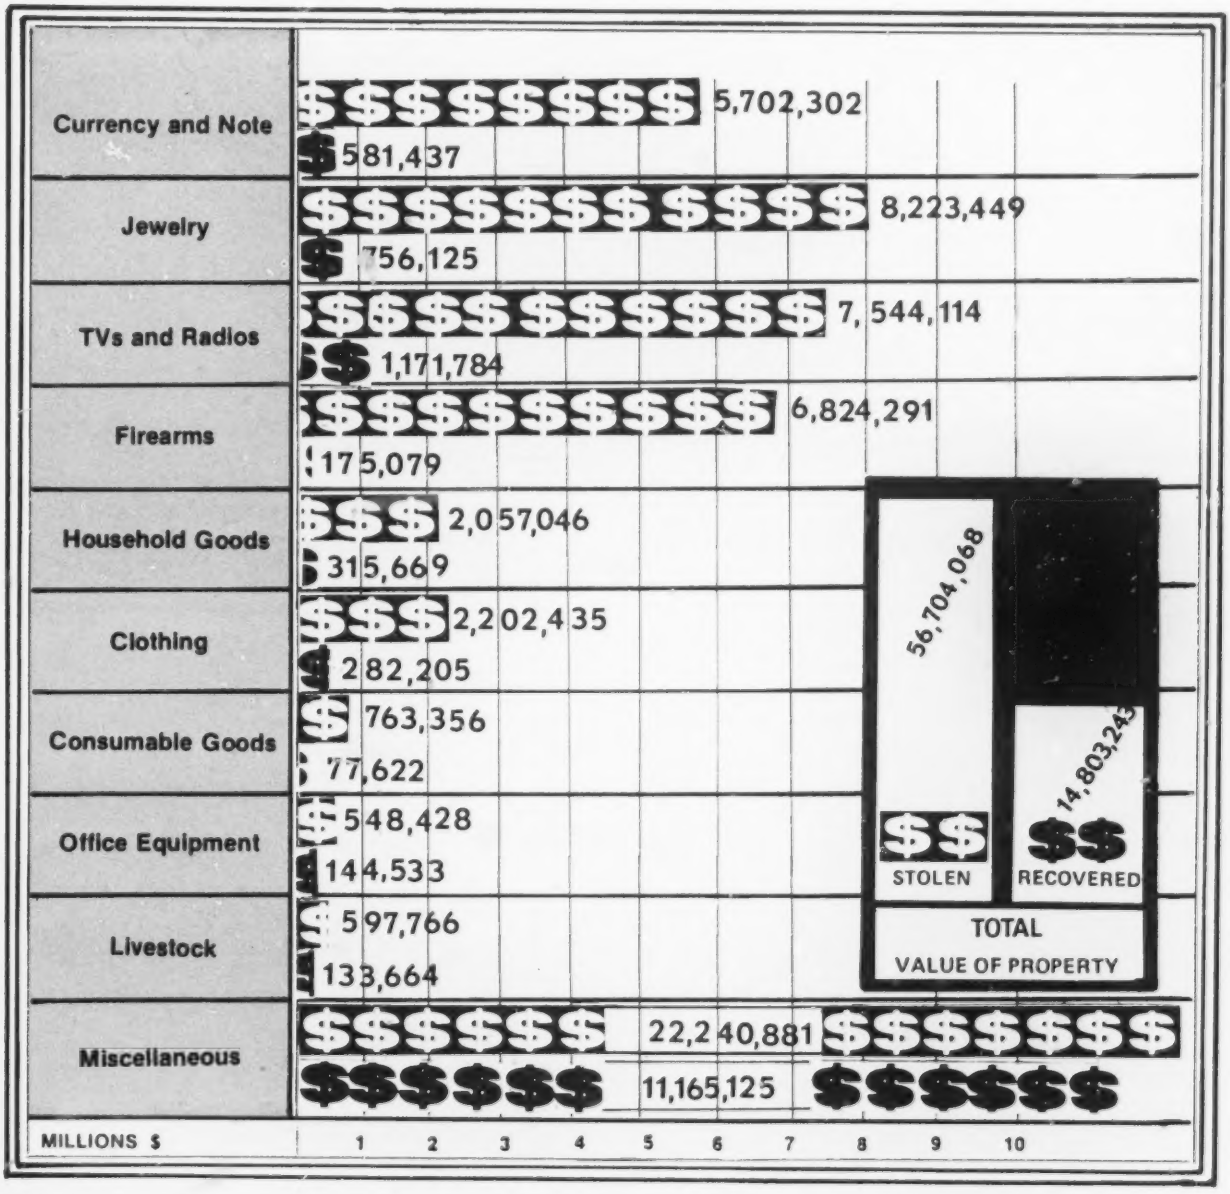
While the theft of Livestock and Farm Equipment reflect only .9% of all larcenies, the value of these thefts are 4.3% of total larceny losses.



VALUE OF PROPERTY STOLEN/RECOVERED

More than $56 million in currency, notes, and other property were reported stolen in Kentucky from larcenies, burglaries, murders, and rapes committed during 1987. This figure does not include the $32 million reported value of motor vehicles stolen during the year.

As shown in the chart below, only $14,803,243 in stolen property was recovered. The percentage of property recovered is 26%. The chart also depicts amounts stolen versus recovered for selected property items most frequently stolen. Other than miscellaneous items, jewelry and precious metals represent the highest value of any single item stolen — over $8 million. Only 9% of these items were recovered by the police. Other frequently stolen items include Currency and Notes (10% recovered), TVs and Radios (16% recovered), Firearms (3% recovered), Household Goods (15% recovered), and Clothing (13% recovered).



AUTO THEFT IN KENTUCKY — 1987

DEFINITION

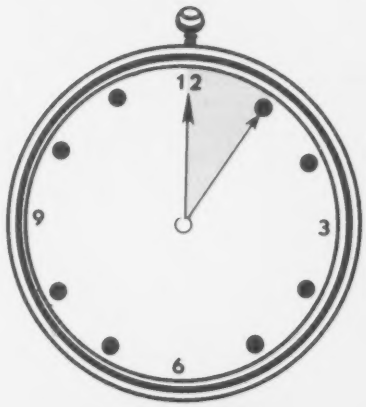
Auto Theft includes all thefts and attempted thefts of motor vehicles, including cars, trucks, busses, motorcycles, mopeds, and motor homes. The taking of a vehicle for temporary use when a prior authority has been granted or can be assumed (such as in family situations) would not be classified as an auto theft.

NUMBER REPORTED	CLEARANCES	RATE
7,259	1,190	16.4

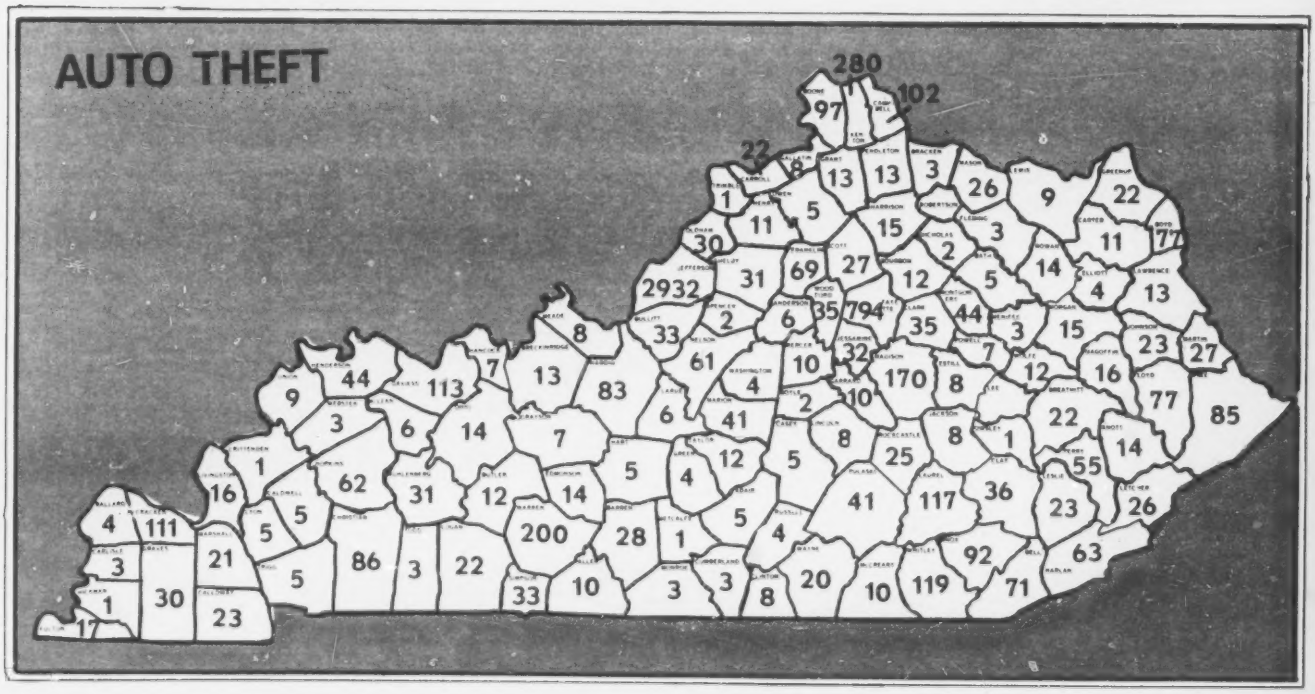
7,259 incidences of Auto Theft were reported to the police during 1987.

With the exception of Robertson County, all Kentucky counties reported incidences of Motor Vehicle Thefts. 40% of all Motor Vehicles reported stolen were in Jefferson County, 11% in Fayette County, and 7% in Boone, Campbell, and Kenton counties in Northern Kentucky. Other counties reporting more than 100 incidences are Warren, Madison, Laurel, Whitley, Daviess, and McCracken counties.

NOTE: Statewide clearances and clearance rates were derived by applying a factor (percent of known cases cleared) to the total number of offenses reported statewide.



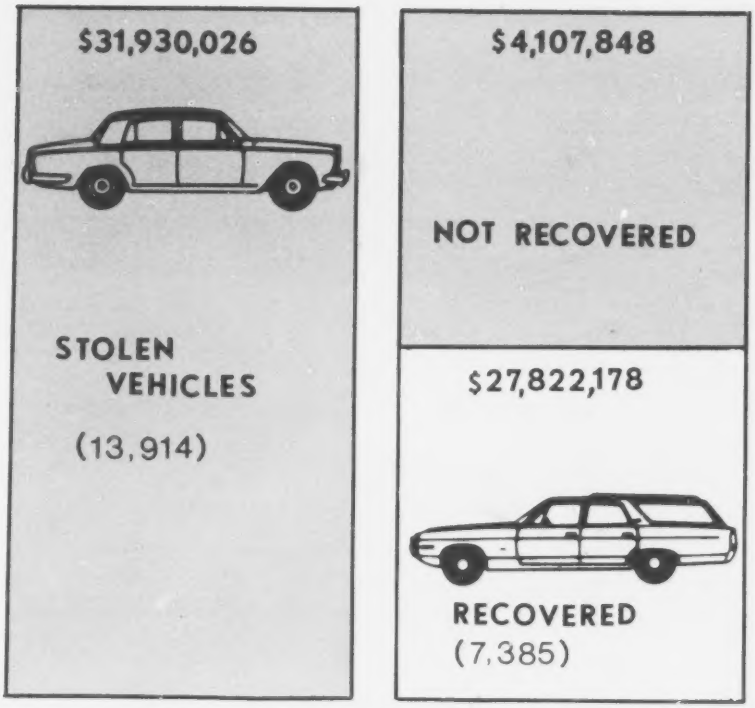
1 AUTO THEFT
every HOUR



COST OF AUTO THEFT IN KENTUCKY

The value of vehicles reported stolen during 1987 was $32 million (13,914 vehicles were stolen). 7,385 vehicles were recovered. The recovery rate (stolen vs. recovered) during 1987 was 53%. However, comparing the value of vehicles stolen vs. recovered, the ratio is only 15%.

This amount does not fully reflect the real cost of auto theft to Kentucky taxpayers because the cost of insurance premiums and other factors such as substitute transportation, lost work days, etc. are not included.



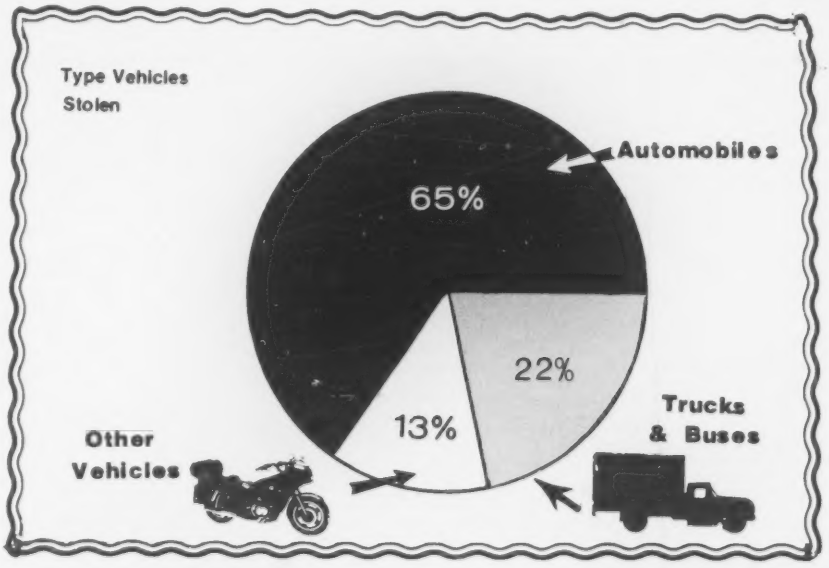
The above figures do not include those vehicles stolen out of town and recovered in Kentucky. Also not included in the above data are farm equipment, bulldozers, airplanes, construction equipment, and motorboats. The value of farm equipment is reported under larceny.

Automobiles (cars, including taxi cabs) which represents 65.3% of all stolen vehicles.*

Trucks and buses stolen, represent 22% of all stolen vehicles.*

"Other vehicles" stolen would include motorcycles, motor scooters, trailbikes, mopeds, etc., and represent 12.7% of the total number of vehicles stolen.*

*Based on a sample of 3,000 vehicles stolen.



ARSON — 1987

DEFINITION

Arson includes any willful or malicious burning or attempt to burn (with or without intent to defraud) a dwelling house, public building, motor vehicle or aircraft, personal property of another, etc. Only fires determined to have been willfully or maliciously set are classified as arson. Attempts to burn are also included.

NUMBER REPORTED	CLEARANCES	RATE
1,472	259	18

1,472 incidences of Arson were reported during 1987. Only 259 of these offenses were cleared by arrest, with a clearance rate of 18%. Total losses from Arson were $22,287,435.

The chart below shows the number of offenses by property type, clearances, and estimated value of property damage or destruction. Single occupancy residences accounted for 38% of all Arsons. Motor Vehicles "torched" accounted for 14% of the Arsons investigated, and Storage Buildings accounted for 21%.

Single occupancy residences burned represent 54% of the total losses resulting from Arson. Although Commercial Buildings (stores, restaurants, offices) account for only 6% of the reported arsons, this type of arson accounts for 16% of the value of property damaged or destroyed.

An ARSON OCCURS every 6 HOURS

	PROPERTY CLASSIFICATION	NUMBER OF OFFENSES	TOTAL Offenses Cleared	Estimated Value of Property Damaged
STRUCTURAL	Single Occupancy Residential (Houses, Townhouses, Duplexes, etc.)	564	107	$ 11,998,163
	Other Residential (Apartments, Flats, Hotels, Motels, Dorms, etc.)	92	19	$ 589,725
	Storage (Barns, Garages, Warehouses, etc.)	312	21	$ 2,867,099
	Industrial/Manufacturing	27	13	$ 983,400
	Other Commercial (Stores, Restaurants, Offices, etc.)	91	22	$ 3,482,909
	Community/Public (Churches, Jails, Schools, Colleges, Hospitals, etc.)	59	27	$ 1,397,478
	All Other Structures (Outbuildings, Monuments, Buildings under Construction, etc.)	65	12	$ 149,055
	TOTAL STRUCTURE	**1,210**	**221**	**$ 21,467,829**
MOBILE	Motor Vehicles (Autos, Trucks, Buses, Motorcycles, etc.)	213	29	$ 628,576
	Other Mobile Property (Trailers, Recreational Vehicles, Airplanes, Boats, etc.)	21	2	$ 182,650
	TOTAL MOBILE	**234**	**31**	**$ 811,226**
	TOTAL OTHER (fences, etc.)	**28**	**7**	**$ 8,380**
	GRAND TOTAL	**1,472**	**259**	**$ 22,287,435**

STATE ARREST TOTAL 1987	172,492

13.2% of all arrests during 1987 were for PART I Crimes.

Arrests for property offenses (burglary, auto theft, and larceny) reflect 75% of all PART I crime arrests.

It should be noted that the data on this and the following pages will show approximately 39,000 less arrests during 1987 when compared with 1986. This difference is primarily due to the fact that July-December arrest data were, in great part derived from the "Court" copy of the Uniform Citation subsequent to disposition versus from the original "Agency" copy submitted when the actual arrest was made. Consequently, 1987 arrest data should not be compared with 1986 and/or previous years.

NOTE: Arrests for PART I and PART II offenses, tabulated by county, can be found on page 48 through 61. Due to "unknown" information reported, total arrests, when broken down by county, will not agree with totals for each offense category shown on pages 42 through 47.

STATISTICAL SUMMARY REPORT
1987

The following statistical summaries for the 1987 calendar year were compiled by the Information Services Branch, Records Section. As the Central Repository for Criminal History and statistical information in Kentucky, the type and volume of criminal history and statistical activities generated over a year are a reflection of the services which the Records Section provides to law enforcement agencies throughout Kentucky. This statistical summary also reflects the level of services performed by law enforcement agencies on behalf of the citizens of the Commonwealth.

Uniform Crime Reports checked, entered, filed	14,630
Uniform Citations coded, entered	237,054
Uniform Offense Reports coded, entered	41,344
Accident Reports coded, entered, filed	142,300
Fatal Accident Reports coded, entered, filed	773
Fingerprint Cards received, classified, filed	24,908
Latent cases	885
Positive identifications	492
Individuals identified with previous records	11,649
Deceased identified	2
Mug Shot Photographs received, filed	7,007
Name Search Requests received	156,180
Statistical Information Requests received	1,728
Records Microprocessed and Filed	1,886,193
